

Veterans In Command Inc

Non-Profit 501(c)(3)

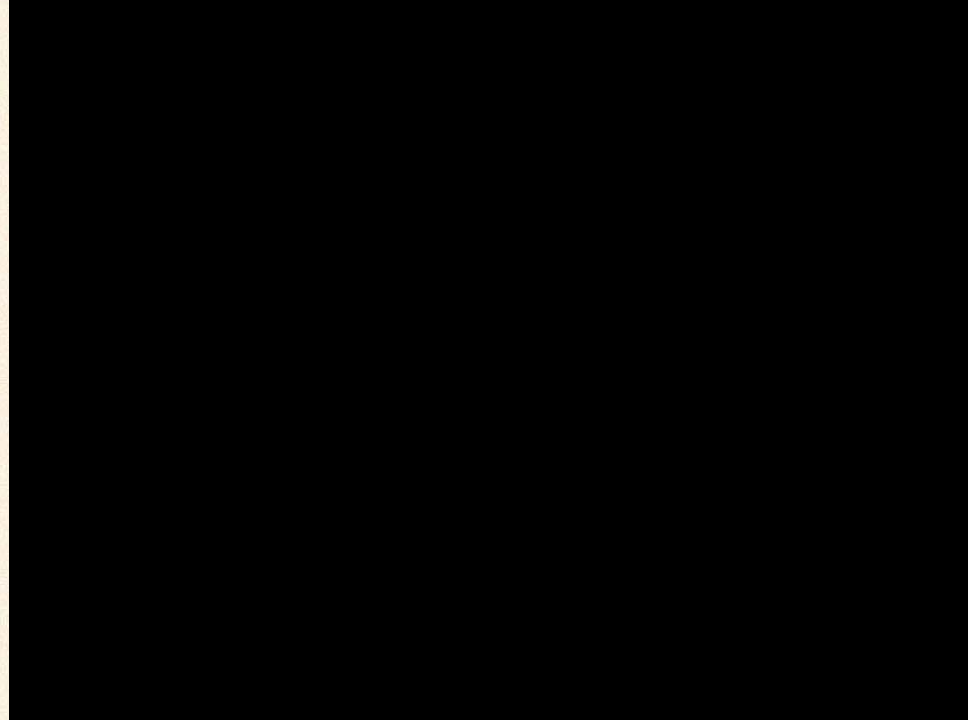

Mission Statement

Veterans in Command has been a 501c3 non-profit organization since 2012. Our mission in Veteran In Command is to provide alternative community settings for homeless veterans and other transitional groups. It is our commitment to provide the kind of housing that we would live in ourselves. Our goal is to help those we serve to reintegrate into society by building their self-esteem and becoming more productive. We do this through different social services by providing physical and mental health care and providing workforce development that includes career and job placement after the training program. Assisting homelessness is the ultimate completion of our work with each individual. We believe we have to improve the homeless system available at present up to its potential. Veteran in Command recognizes the necessary improvements needed in this field. We are committed to working towards a productive solution to enhance the quality of life for the individuals we serve. We understand that we have to help the less fortunate to the best of our ability for our society as a whole. Every one of us matters; we vow to prove a better society is possible.

Goals

Our Veterans In Command helps homeless Veterans have a safe house. We help Veterans and nonveterans to be able to sustain themselves. Our residents are subsidized by the Department of Homeless Services and human resource administration. Our housing is blended into a community instead of a warehouse and hotels which helps have a productive impact on these communities. We want men to have a stable home, and a sense of pride so they can come and go in their community with their heads held up high. For some older Veterans, we provide a long-term safe environment they can call home. We are interested in obtaining and managing properties for veterans and people coming out of institutions.

Thanks!
